FIBER TILES FITTED ON TO IBR OR CORRUGATED ROOFS.

FiberReed Tiles can be fitted to almost *any* type of sub roof. The photos show an application on Corrugated Sheets as well as on IBR Sheets. The Fiber Tiles are *screwed* onto the Corrugated and IBR Sheets using 25mm(1") x 5.5mm(7/32") "Tek's" Hexagon Self Drilling Zinc Plated Yellow Screws. Galvanized screws of same dimensions can also be used. **The Polyurethane Rubber Binding Strip of the tiles ensures a 100% waterproof attachment.** (Exclusive to Fiber Roofing cc)

The photos illustrate the various options.
